**Re: Proposed Agency Fee Regulations**

Dear Ms. Bogert:

We are in agreement with the California Teachers Association that PERB Regulation 32992(b) (1) would be clearer if it read “The calculation of the chargeable and nonchargeable expenditures will be based on an audited financial report, *and the notice will include a copy of the audited financial report used to calculate the chargeable and nonchargeable expenditures. All such calculations shall be made on the basis of an independent audit that shall be made available to the nonmember.*”

Yours Truly,

A handwritten signature in black ink, appearing to read "Martin Hittelman", is written over a horizontal line.
